

VALIDITY OF BIETLER TAXATION BILL AND OIL INSPECTION BILL QUESTIONED

By Associated Press.
COLUMBUS, MARCH 19.—LEGISLATIVE CIRCLES WERE STIRRED TODAY BY DOUBT WHETHER THE BIETLER TAXATION BILL AND THE MOORE OIL INSPECTION FEE BILL, BOTH BEARING EMERGENCY CLAUSES, ACTUALLY PASSED BY A SUFFICIENT VOTE REQUIRED BY THE CONSTITUTION FOR AN EMERGENCY ACT, OR WHETHER THEY DID NOT RECEIVE THE NUMBER OF VOTES REQUIRED, AND ARE DEAD.
IF ATTORNEY GENERAL TURNER RULES THAT A TWO-THIRDS VOTE IS REQUIRED ON ANY EMERGENCY BILL, AS WELL AS ON ONLY THE EMERGENCY CLAUSE, THE MOORE AND BIETLER BILLS WILL HAVE NO IMMEDIATE EFFECT.
AN OPEN FIGHT ON THE FLOOR OF THE HOUSE WAS FORECASTED TODAY WHEN THE SCHOOLS COMMITTEE REPORTED OUT THE DEATON UNIFORM TEXT BOOK BILL, AND RECOMMENDED ITS PASSAGE.

London, March 19.—The apparent pressure, and that several representatives of the dual monarchy will go to Berlin to present their reasons for desiring to resist Italy's wishes. Bucharest reports Austrian forces near Tilsit, and the allied in Bukowina have been reinforced. British observers, put Germany in a position where she dare not shift a substantial force from either the east or west.

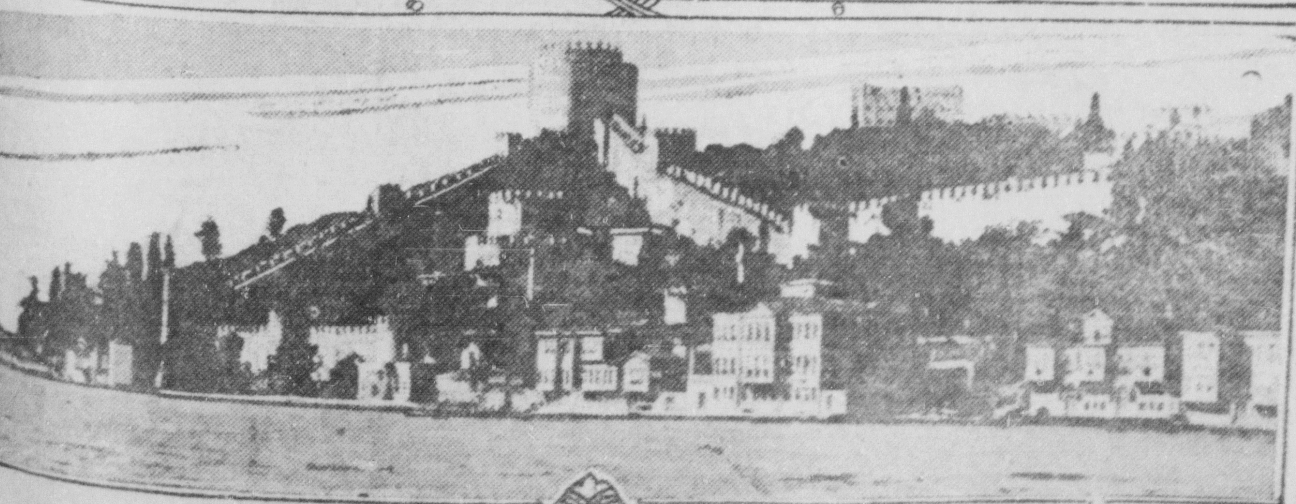

It is pointed out that the plan to deliver a crushing blow in one theater and then to rush across the country to the other, has miscarried on both fronts. Considerable mystery surrounds the next move of the Germans, although the prevailing belief here is that it will be a big offensive in the west, probably against the British front.

The government is proceeding with the plan to mobilize women to take men needed in the war. Several hundred having been registered during the past 24 hours.

Rome, March 19.—What is said to be a presentation of Austria's attitude toward Italy, as set forth in a Vienna dispatch to Rome, confirms the statement that Austria, if it agrees to make territorial concessions sufficient to satisfy Italy, will defer formal transfer of the territory until after the war.

Austria, it is said, desires to assure herself that Italy will adhere to the promise of neutrality in return for the grant. This attitude is decried in Rome as unsatisfactory.

ARGUMENTS IN DAMAGE CASE TODAY

By Associated Press.
Boston, March 19.—Arguments in the suit of the minority stockholders of the New York, New Haven & Hartford Ry. to recover for the company approximately \$102,000,000, alleged to have been wrongfully spent, and in addition double that amount in penalties, were made before the Supreme Court today.
Hartford, to recover for the company approximately \$102,000,000, alleged to have been wrongfully spent, and in addition double that amount in penalties, were made before the Supreme Court today.

The defendants include William Rockefeller, Robert W. Taft, Charles S. Mellen, the executors of the estate of the late J. P. Morgan, and others. The bill charges that Rockefeller, Mellen and others, acting in concert with J. P. Morgan and others, planned to effect a monopoly of all transportation companies in New England, and parts of New York, and, in acquiring such property, paid large sums in excess of the actual value.

FAYETTE COUNTY'S ONE
HANGING IS RECALLED

BY APPALLING NUMBER OF RECENT MURDERS AND SIMILARITY OF CIRCUMSTANCES TO THOSE OF BANTER CRIME.

CABIN OF MURDERED
MAN STILL STANDING

NEAR OLD ROBERTS FARM IN CONCORD TOWNSHIP — OLD FILES OF HERALD GIVE DETAILED ACCOUNT OF EXECUTION OF WILLIAM GEORGE WASHINGTON SMITH, CONVICTED SLAYER OF JOHN GRAY.

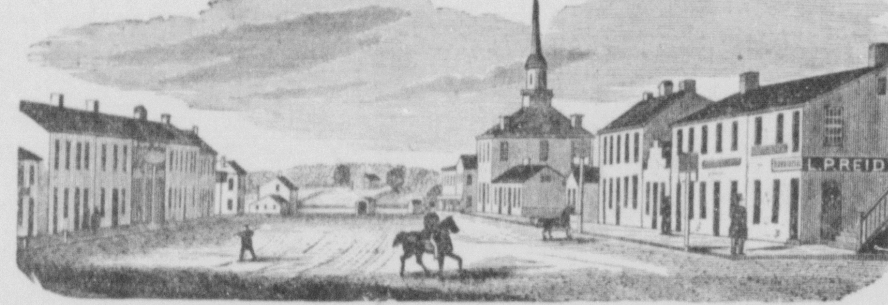

Within the past two years Fayette county has been called upon to prosecute persons on four separate charges of murder committed within her borders. The fact is appalling. At no time in previous history has a wave of crime of such proportions swept over the community; never before, to the knowledge of old residents, have four capital crimes been brought to bar in Fayette county within such a short space of time.

Delbert Payne, a young colored man is serving a life sentence in the state penitentiary for the murder of "Little" Duffey in October, 1913. The crime shook the entire community.

Not quite a year ago Bertha Hutchison, a young woman of this city, was brought before the court charged with having caused the death of her own child. Mrs. Hutchison was pronounced insane and committed to the State Hospital for the Criminal Insane, from which she secured a release a few weeks ago.

Not more than a few weeks ago John Howard, colored, was taken into custody charged with the murder of Mrs. Nannie Byrd, also colored, by shooting. He is now awaiting indictment.

And now the county jail contains three prisoners, John and Jesse Denner and Flora Denner, the former's

An Interesting Old Drawing of Court Street Made Several Years Before The Hanging of Smith. The Building With the Spire is the Old Court House, in Which Smith's Trial Was Held. It Stood Where The Sharp Memorial Now Stands at The Corner of Court and Main Streets. Immediately North of the Court House Stood the Sheriff's Residence and the Old County Jail Facing Main Street. wife, who will face the grand jury, charged with causing the death of John Bainter, whose long dead body was unearthed from a shallow grave on the Dore farm last week, and whose death occurred last December.

Saturday these latter named prisoners were brought before the Mayor for preliminary hearing. Owing to the great throng of spectators it was necessary to hold court in the large common pleas court room, and even that proved inadequate to accommodate the many who were forced to remain in the corridors of the court house.

The hearing was of no great importance and the spectators were merely curious to get a look at the prisoners in the sensational case. Seldom has such a multitude of humanity been drawn together in Fayette county by a court proceeding, and it recalls to the minds of the old timers the murder case of William George Washington Smith, who was put to death on the gallows for his crime December 14, 1866, in the jail yard, then occupying a spot just about where the west entrance to the present court house is located.

The hanging of Smith was the only such event that ever occurred in Fayette county, at least to the knowledge of old residents, and on that day the town was packed with thousands of people, many of whom came from a great distance.

Smith was a white man and 49 years of age. He was convicted of killing John Gray, a farmer, on the night of October 29, 1864. Smith maintained innocence to the last, but it appears that the evidence against him was conclusive. John Adams, arrested with Smith as an accomplice, was given a penitentiary term.

The case of Smith and that of the Denners, now facing trial, are strikingly similar. In each case the victim and the men charged with the murder were brothers-in-law, and the crime committed by Smith was carried out in much the same way as was that with which the Denners are confronted.

In an old history of Fayette county the particulars of Smith's crime and his subsequent execution are given in detail. Gray, Smith's victim, lived in a cabin near the old Roberts farm in Concord township. This cabin, much dilapidated, still stands. At the time of the murder he was living alone, a widow and her daughter, the other occupants, having been previously induced by the participants in the crime to visit relatives at a distance. Adams and Smith lived near Petersburg and rode to the scene of the murder on horseback. An old feud, which was engendered when the families resided in Virginia some years before, still existed. This and a sum of money—about \$400—constituted the supposed incentive to the deed.

Smith and Adams left their homes on the night of the murder, ostensibly to attend a lodge meeting. They rode the 20 miles to Gray's cabin, and before approaching it stopped in a thicket to cut a heavy club, with which later Gray was felled. Smith is credited with having done the deed while Adams remained outside the shack.

The evidence in the case was purely circumstantial. It was some days after the murder before the body of Gray was found, in the old Trimble gravel pit.

Dave Brown, a blacksmith, was first held for the crime but was later released. A detective and deputy sheriff, after some days, picked up the telltale trail which led to the Smith home, where blood-spotted blue army overcoats were discovered and identified by Mrs. Smith as those worn by Smith and Adams on the night of the murder. Smith was soon located and failed to give a

adieu to you all,' and then turned to the sheriff motioned him to proceed, and the noose was adjusted and the black cap pulled down over his face. At just twenty-eight minutes past one o'clock the drop fell, and the prisoner was launched into eternity.

Thus ended the Gray tragedy, the most historic murder case in Fayette county annals.

Some of the principals in the trial and hanging are well remembered as among the pioneers of the county. Captain Henkle of the guards and Sheriff Straley were ancestors of the Henkle family of this city and county and the Straleys of Jefferson township. Rev. Emerson was the pastor of the old Baptist church here at that time.

Attorneys R. M. Briggs and R. A. Harrison represented Smith in the trial and were appointed by the court. Attorneys H. B. Maynard and Mills Gardner assisted in the prosecution. Among the names of the jurymen are represented some of the most prominent of Fayette county fathers. They are as follows: William James, David Lysinger, John L. Myers, J. R. Vanausdale, Jacob Eyeman, Joel Wood, John P. Gregg, H. W. Hull, William Kearney, Anthony Coaler, L. R. Timmons and Thomas Braden.

Mr. W. W. Millikan, then one of the publishers of the weekly Herald, is probably the only resident of Fayette county now living who was among the few that witnessed the hanging, from which the curious populace was barren.

Placing Public Funds

Treasurer of State Archer is just completing the work of tabulating the bids received from the banks throughout the state for the use of the money now in the strong vaults of the state.

After all the debts are paid the state has about ten millions of dollars to loan out at interest to the banks. Under the present order of things the banks of the state submit bids in which they agree first to secure, absolutely, all money deposited with them and to pay a stated rate of interest for the use of the funds.

It is generally believed that the cash balances of the state will command, this year, a rate of interest but slightly under four percent—three and eight-tenths per cent is believed to be the lowest rate at which the state will be obliged to loan its money.

It is well, when considering these figures and realizing that the receipt of three and eight-tenths per cent annually, interest on the cash balances, will produce for the state about three hundred and eighty thousand dollars a year, to think of the change that has occurred within the last few years.

Less than a decade ago these sums of interest, large or small, depending on the condition of the state treasury, were paid to the people of the state. The money was handed out to favored banks on account of political influences operating in their behalf. The people received nothing and the favored few banks and politicians received all.

Now when the money of the people is loaned out it is made to earn what it is worth and those earnings go to the people.

When one realizes what a change for good has been made in that regard can it be doubted that progress is really being made and that slowly but surely the people are coming into their rights?

When one gets a little impatient over the failure of this proposed reform to be adopted it is encouraging to look back and dwell for a little time on the really good things that have been accomplished. One of those really good things is the diversion of public funds from political control for private profit to the channels of real business on a business basis for the profit of the real-owners—the people.

The splendid cash balances which the state treasury now holds and the big sums those balances will produce this year makes the fact of changed conditions very impressive indeed.

The Blockade Of Germany

The officials of the United States government, striving to exert, as far as possible, the disastrous effect of the war in Europe on trade conditions are, quite naturally, keenly disappointed over the refusal of Great Britain to allow the shipment of food stuffs and cotton to Germany and certain manufactured articles and dyes from Germany.

In our disappointment over the failure of our efforts to secure a modification of England's rigid blockade decree, we must not permit ourselves to lose sight of the justification which England urges in support of her action. Germany, by her under-sea raids, has attempted to impose just such a blockade upon England and has made, by those raids, the seas around Great Britain such a zone of danger that commerce with Great Britain has been greatly crippled.

In retaliation the government of King George proposes to make a real blockade of German ports and that it will do so on one question.

The effect on the United States of this cutting off of commerce with Germany is bound to be harmful on American business, for a time at least.

It has, however, one ray of hope which shines out from behind the black cloud of the present and that is that it may compel the manufacture in this country of many articles heretofore purchased from Germany.

On the case thus far presented, while we may protest and doubtless feel aggrieved and disappointed at England's refusal to make an exception as to the United States, yet we appear to have no real cause to complain of Great Britain's action either in the imposition of the blockade or in her refusal except the United States from its operation.

Woman's Influence More Powerful In the Home Than at the Ballot Box

By Mrs. C. O. BURTON, Anti-Suffragist, North Carolina

The majority of women in the United States belong to that blessed class of society where the making of a home and the caring for husband and children are the first duties. THE INFLUENCE RADIATING FROM A WELL ORGANIZED HOME, A HOME WHICH HELPS NEVER CAN PROVIDE, IS MORE POWERFUL AND FARREACHING THAN THE INFLUENCE FROM THE STATE THAT THE HOME MAKER MIGHT CAST.

Men today do not belittle women. There is no limit to curb a woman's ambition. The appointments of women to fill high positions of power in many of our large cities show this, and no criticism is made of any woman who desires to hold office if she proves that she is capable.

I THANK GOD FOR THE LARGE CLASS OF EARNEST MEN WHO ARE WORKING TO CARE FOR AND PROTECT THE HOMES AND THE WOMEN, AND I TRUST THEY WILL ASSERT THEMSELVES IN THIS

Our Daily Special.
You can run into debt, but you have to crawl out.

Luke McLuke Says

A man never discovers that he doesn't know a woman until after he marries her.

The old fashioned old maid who used to wear corkscrew curls now has a bachelor girl niece who sends her hair out every now and then and has a permanent wave put in it.

You can find out more about a man's real nature by going to a poker game with him than you can by going to a prayer meeting with him.

Some men sit down all day and whine that luck is against them. And then they wonder why they do not make good.

The married woman who stays home and does her own housework may have rough hands. But her conscience is usually smoother than that of the married dame who paints up and gads around town all day.

Some men have no sympathy with the poor because they believe that people should not permit their appetites to outgrow their incomes.

We are always willing to forgive those who trespass against others.

What has become of the old fashioned woman who used to open a can of tomatoes with hot coals?

There is only one way to get wisdom, but there are 900,000,000 ways to make a fool of yourself.

Things are not arranged right in this world. The Society For the Prevention of Cruelty to Animals will arrest a man who beats a horse, but it doesn't take any action against a woman who kisses a dog.

If a woman would try to make as much of an impression on her husband when she is at home as she tries to make on strangers when she is out there wouldn't be so many unhappy marriages.

I may be an iconoclast, but I want to put you wise to something. The fellow who carries a cane isn't a blame bit more important than you are.

When mother whips the children father tries to be absolutely neutral. But when father whips the mother kisses them and tells father that it is a shame to beat the poor children because they can't help the fact that they inherited their orneryness from their father.

And as for the spring styles in female headgear! All the samples we have seen thus far look as though they were designed by a cubist artist when he was suffering from the d. t.'s.

Mother can always remember daughter's birthday, but she always manages to forget her own.

MESSAGE SENT TO THE JAPS

United States Takes Up Mikado's Demands on China.

WOULD SAFEGUARD OPEN DOOR

Assumed at Washington, However, That the Government Has Not Gone to Any Extreme Lengths in Opposing the Japanese Policy With Respect to China—Administration Would Draw Pledge From Tokyo.

Washington, March 19.—It is acknowledged officially that the United States is making representations to Japan on the subject of the latter's demands upon China. Beyond this admission the administration refused to throw any light on the steps taken to safeguard the "open door" in China. There is ample ground for the assumption, however, that this government has not gone to any extreme lengths in opposing the Japanese policy with respect to China. In fact Japan has so adroitly managed her diplomatic exchanges with China and the interested powers to make it very difficult for any government to interpose at this time more than a friendly suggestion. Any attempt to go further would lay the protesting government open to a charge of unfriendliness toward Japan.

The American representations were not made jointly with any other government, but it is a fact that America was preceded by inquiries among the other powers interested in China, with the exception of Germany. The response received determined to a considerable extent the action of the United States. It was considered inadvisable, however, that this government join with any other government in taking up the subject with Japan. In dealing with all the parties to the present war the United States has adhered strictly to a policy of acting absolutely and for itself.

The American representations are described as inquiries calculated to draw from Japan a response which will stand as her pledge or guarantee of her purpose with respect to China.

DESERTER SHOT ON BROADWAY

New York, March 19.—Breaking away from a sergeant sent by General Wood from Governor's Island to take him thence on a charge of desertion from the army, Joseph Fleishman, who deserted from Company H, Twenty-seventh infantry, stationed at Texas City, Tex., was shot down near Broadway by his custodian in his attempt to escape. Four shots were fired by Fleishman's pursuer, Sergeant Henry Feld, and one of the bullets struck an innocent bystander, a peddler, who was hurried to the New York hospital. The peddler was suffering with a stomach wound and his condition was said to be critical. Fleishman, who says he was a farmer before he became a soldier, received a bullet wound in the back of the neck, and he too was taken to the hospital.

DOCTORS LOCATE LEADEN BALL IN BASE OF SKULL

FINAL EXAMINATION AND REPORT MADE BY DOCTORS APPOINTED TO CONDUCT POST MORTEM EXAMINATION OVER REMAINS OF JOHN BAINTER—BALL BADLY PATTERNED.

Final examination made by Drs. Stitt and Todhunter, appointed to conduct the post mortem examination over the remains of John Bainter, were completed Friday afternoon when a leaden bullet, badly battered and evidently of 44-caliber, was removed from the base of the tongue and is being preserved with the skull itself. The ball had penetrated the top of the head, passed through the brain, the back portion of the roof of the mouth, and landed in the base of the tongue. Their report has been submitted to Coroner C. A. Teeters.

The following excerpts from the post mortem report will be of general interest:

"Contusions—none.

"Wounds—two perforating wounds about two inches apart in and through the scalp over the left posterior portion of parietal eminence. Laceration of upper and lower eyelids of left eye.

"Internal examination—Head—Skull—Two perforating holes about two inches apart in and through the left posterior portion of the parietal eminence. The anterior perforation round, about three-quarters of an inch in diameter. The posterior perforation oblong, about one inch in length.

"The anterior hole gives an appearance as if it was made from without inward. The posterior hole gives an appearance as if it was made from within outward. Perforating hole through bone of left orbit.

"Perforating hole in base of skull near the carotid groove at the left side of center portion of sphenoid bone.

"The posterior hole in top of skull gives appearance of being continuous downward and forward with hole in the left orbit.

"Fractures—Three in number, the first beginning in the right parietal bone through it and extending across the petrus portion of the temporal bone to the left side of same. The second beginning about the junction of the parietal and petrous portion of the temporal bone running forward on the basal portion through the lesser right wing of sphenoid bone into the right orbit. The third beginning at a hole at the side of the central portion of sphenoid bone running forward through the lesser left wing

of sphenoid bone into the left orbit. Other smaller and lesser fractures radiating from the above and main and important ones.

"A lead bullet was found buried in the base of the tongue. Its size is about a 44-caliber."

The remainder of the report deals with the general condition of the body.

TO BRING EUROPEAN WAR TO THIS CITY

Mr. Charles Johnson of the Wonderland theater, has booked the famous European war pictures which have attracted such widespread attention where shown. The pictures are genuine in every respect, and give onlookers an idea of what the warring millions are doing in Europe—what European "Culture" is doing for the "uplift" of Europe.

The war pictures consist of several reels, and when recently shown in the Hartman theater, Columbus, created a profound sensation. Mr. Johnson expects to have the pictures here about April 7th.

NORTH STREET SEWER WORK IS PROGRESSING

City Service Director Gerstner announces that the North street sewer construction from the B. & O. railroad crossing to the corporation line will be completed Friday or Saturday and that immediately work will begin on the construction of a sewer from the railroad to Paint street, where a connection will be made with the Paint street sewer. From 30 to 45 workmen have been employed on favorable days the past three weeks.

JUNIORS ENJOY BANQUET AND SOCIAL HOUR

A splendid banquet, with every accessory of eloquence, music, fraternal and social pleasure, proved a most delightful sequel to the spirited contest between the Reds and the Blues of the Junior Order of United American Mechanics, on Thursday night.

About two hundred persons, including members of the order, their wives, and friends, assembled in the I. O. O. F. hall by six o'clock at which hour the winning Reds were entertained by the valiant, but less successful Blues. Both sides felt mighty good over that contest, which had resulted in forty new members.

The presence of two state officers, State Deputy of the Beneficiary Degree B. B. Beck, and R. S. Cox, of Portsmouth, was also an incentive to the fraternal spirit of the hour.

Caterer Easton served a delicious hot chicken supper that received general praise from both the entertained and the entertainers. Orchestral music added enjoyment to the supper, the musicians, Miss Holahan, Messrs Holahan, Adams and Miller.

Following the supper excellent speeches were made by the two state officers, Messrs Beck and Cox. Both speakers gave generous praise to the Fayette county lodge, which has been organized but five years and now has 150 members and is in excellent standing.

Mr. Jareq Adams filled the role of chairman and toast master efficiently. The remainder of the evening was merrily spent in dancing, the old fashioned square dances being given place among the newer ones. Cole and Miller furnished the dance music.

All arrangements were capably managed under the direction of Councillor Frank Reveal, captain of the Blues, assisted by Jack Rodgers, of the Blues and J. D. Weagley, of the Reds.

ANTIQUITY OF SEAL RINGS.

They Are Mentioned In the Bible and Their Origin Is Unknown.

The origin of seals is lost in the shades of antiquity. In Assyrian and Babylonian ruins seals are still found, and it is certain that their use passed from those countries to Greece and Rome, to all European countries and from England to America. Originally they were set in rings.

The earliest references to them in Biblical history is found in Genesis xxxviii, where it is recorded that, pending certain negotiations between Judah and Tamar, the widow of his son, Tamar demanded a pledge and Judah gave her his signet and other belongings. And when Ahab, king of Israel, tried to buy Naboth's vineyard and couldn't his wife Jezebel "wrote letters in Ahab's name and sealed them with his seal."

In the book of Esther, chapter viii, it is written that King Ahasuerus said to Esther and Mordecai, "Write ye also for the Jews, as it liketh you, in the king's name and seal it with the king's ring, for the writing which is written in the king's name and sealed with his ring may no man reverse."

Seals doubtless were used long before the stirring events described in the quoted chapter of Genesis, but no one took the trouble to write about them. From the time of Jeremiah to William the Conqueror the pen was practically unknown to king, noble or peasant, so the seal was absolutely necessary.—Kansas City Star.

Dog or Ox.

W. B. Wright says: "A dog drinking is the emblem of alertness. Watch him. If a leaf rustles he sees it and starts. Sights and sounds which elude your powers of observation arrest his. The most conspicuous distinction between the dog and the ox at water is this: The ox never heeds his master until his thirst is quenched; the dog never heeds his master until his master is obeyed. I have seen a hound panting with heat, his black lips bared, his tongue cracked, dart toward the cool spring. But his master's whistle arrests him at the brink, and he darts back without a drop. I have watched drovers call, pound, goad oxen at the ford, but the beasts would not budge until their thirst was slaked. Both types you may have seen among the recruits enlisted in the army of the Lord."—Christian Herald.

BASEBALL OR FOOTBALL.

Which of the Two Games Calls For the Greater Courage?

A group of former varsity football players were arguing the interesting point as to which requires more nerve on the part of participants—football or baseball. One would think there would not be a dissenting voice to the opinion that the gridiron sport requires far more nerve. Yet there were several who strenuously debated this contention, holding that the mental strain was greater upon the man who plays baseball.

"I played varsity baseball and varsity football," said one man of the group, "and I want to tell you that the only time I ever felt inward tremors was when I stood at the plate facing a pitcher who had a fast ball. There is something about the situation—or always was to me—which made me feel my helplessness, made me feel at the mercy of the pitcher, or rather at the mercy of his possible bad aim. In football you were fighting against one man and he had nothing to throw at you."

"I felt the same way," chimed in a

former varsity guard. "When I came from prep school I had a reputation as a pitcher, but I never tried for the team because I hadn't the nerve to face the shoots of varsity twirlers." The curious thing is that this man in his day was one of the most daring and resourceful football players in the game.—Philadelphia Ledger.

An interesting instance of the hypnotic power possessed by a good many animals is given by a correspondent of the Glasgow Herald. One morning outside Elgin a blackbird was observed to be standing by the roadside, paying heed to the footsteps of the passerby. It was gazing fixedly at four young weasels under the hedge, which were approaching in a semicircle, apparently to surround it. Just then a warning cry was heard from behind, uttered presumably by the parent weasel, and the young ones disappeared in the hedge. The bird still remained powerless and immovable, and only after repeated urging did it fly to a tree near by, when it gave forth a weak, frightened sound, as though still under the influence of the terror which had arrested its faculties.

MILLINERY OFFERINGS FOR SPRING ARE DISTINCTIVE

JAUNTY SAILOR AND MILITARY SHAPES IN STRAW, SILK AND SATIN. FLUTTERING RIBBONS AND QUAIN NOSEGAYS ARE VERY FETCHING—DAME FASHION BIDS FAREWELL TO ALL BUT THE UPRIGHT MARCHING STEP.

The spring millinery openings this week have attracted a great deal of attention and big crowds have thronged the various millinery shops and departments eager to see the latest whim of Dame Fashion—and to follow it accordingly.

Washington milliners have vied with each other in these openings to give local shoppers the opportunity to see fashions as beautiful and distinctive as are found in any of the larger cities. They have been wonderfully successful too, and both in the millinery departments of our large stores, artistically beautified and with surroundings specially adapted to exhibit of millinery, and in the individual shops, with their display of millinery and its accessories occupying the entire attention, are found choice selections.

Master designers have filled the millinery shops with new models in straw, chiffon, tulle, ribbons and flowers and all week women and girls have been trying on these pretty harbingers of spring.

Although some designers brought out the large hat late in the winter as a sample of what we would wear in the spring, but the small hat rules the moment.

It is a turban with an irregular brim, usually, and the trimming is not important. The main impression left on the mind by an exhaustive study of the new models is one of sauciness in straw, associated with fluttering narrow ribbons, quaint nosegays and bobbing single rose and freckish feathers.

Charming little hats, all meant for perching jauntily on the right side of a slicked back, high coiffure and top tilting forward to the partial or

total eclipse of the right eyebrow. To be in fashion old or young, slim and stout, must pose these hats at tipsy angles on their heads.

There are many sailor hats some of the Castle type others with only an inch and a half high crown. Some of the shapes with the tiny narrow crowns, are absolutely without trimmings, save for hatpins with large heads of straw. Drooping hats have narrow ribbon streamers and flowers. A few feathers, too, wave defiance at the ribbons.

Hats made of layers of chiffon are highly regarded and they too, as a rule, have the narrow ribbon and flowers.

An idea that is popular in connection with this sort of hat is to lay flowers very flat on the brim and to cover them by one tightly stretched layer of chiffon. The effect is charming and one of the French designers have varied the theme by making the whole round crown of flowers—flat blossoms like single dahlias in beautiful shades of blues and purples—covering them smoothly with dark blue chiffon and blading it with a narrow roll of purple satin. Everything this year is military.

Gone is the glide and side walk and the debutante slouch, and in their places comes the upright marching step, of other days.

In Social Circles

Thursday afternoon's meeting of the ladies aid society of Grace church was attended by fifty women, who enjoyed the sociability of congenial interests.

Mrs. W. H. Dial was chairman and the assisting hostesses were Mesdames Christopher, Dick, Durlinger, Wm. Dalbey, Duff, Cheney, Wm. De Wees, Wm. Craig, Caldwell, Misses Daisy Cockerill and Mary Cox.

An informal program added to the pleasure of the afternoon. Mrs. H. W. Wills played a pretty piano solo. Mrs. Frank Christopher gave a reading and Mrs. B. E. Kelley a piano solo, characterized by her always artistic interpretation.

The hostesses served light refreshments.

The March meeting of the Presbyterian Missionary Society was held on Thursday afternoon at the Pres-

byterian manse and assisting Mrs. Gage as hostess were Mesdames Roy Young, J. W. Rothrock, Rell Allen, Mary Rodgers, Brigg, McClure, Sutherland, Blakeley, Cutting, H. D. Chaffin, Worrell, Howell, Post, Bradley.

The motto for the month was peculiarly fitting with the subject of the Immigrant and Japanese: "Him that Cometh to Me I Will in no Wise Cast Out." After opening the meeting the president, Mrs. Hopkins, tenderly referred to Mrs. Grove, a member who will be sadly missed from her church and her community.

Mrs. McCoy had charge of the program, the first number being a most interesting paper on "The Future American; The Immigrant," by Mrs. Hadley. She said immigration is a barometer of prosperity for a nation. Statistics are dry but they talk; in thirty-seven of our cities the foreigners outnumber the Americans and the children of foreign birth are outstripping their American mates. One Michigan high school contains twenty nationalities.

Foreigners are going to have a large share in our government as was shown in a late Chicago election when of 132 candidates, one-half were either immigrants or children of immigrants. There is a colony of ninety thousand Italians on the pepper and of New York and Bohemian Hall in New York and Chicago at cost of \$100,000. These are centers of free thinking and altruistic. These strangers contribute 85 per cent of the labor in slaughter houses, seven-tenths per cent of the coal mining, 78 per cent of the work in the woolen mills and nine-tenths in the cotton.

Mrs. Henness invited the listeners over to the other side of the world and showed them Japan and her growth into Christianity. Present day Japanese do not know where the boundary lines are to be of the four great islands and the chain of islands 548 and more that make up Japan and hold its population of 50,000,000. The transformation of Japan from a country wholly closed against foreigners to one open for free international intercourse and to a constitutional government is remarkable. Two great things have helped to make Japan; the abolition of torture and the granting of religious liberty.

The social hour and light refreshments was a pleasant feature of the meeting and much enjoyed by the large number of ladies in attendance.

The delegates elected to accompany the Presbyterian officers, Mesdames Ustick, Hopkins and Fullerton, to the Annual Presbyterian meeting, were Mesdames Walker, Gage, and Woodland delegates; Mesdames Hammer, Williams and Henness, alternates.

Mr. and Mrs. J. P. Evans delightedly entertained three tables of guests at an informal little "500" party Friday evening. A delicious repast followed the game.

If P. T. Barnum would advertise today as he did thirty years ago he would not get by with that kind of advertising. The Kingsbury Piano

Will help you settle your piano question NOW

—Settle it without extravagance and without risk

Without Extravagance On our floors the KINGSBURY piano represents the extreme limit of value-giving in a standard instrument.

It is a true-toned piano. It is made especially for those who possess a fine sense of musical values and a shrewd sense of the dollar's worth.

No other piano at a similar price receives the extra finishing given the Kingsbury and with materials that cost 50 per cent more than those almost universally used.

The name of the World's Greatest Manufacturers of Pianos and Player Pianos is in plain sight, just above the keyboard on every Kingsbury Piano—a name that is, itself, a guarantee of quality and satisfaction. And finally, that last step in honest merchandising—

DEMOCRATS VOTE WITH MAJORITY

Emergency Clause Attached to the Oil Inspection Bill

MEASURE CUTS FEES IN HALF

Chairman Reighard to Drop the Matter of a Lobby Probe and Will Not Offer His Resolution—Liquor License Decentralizer Reported to the Senate—Bunch of Labor Bills Also Up For Action.

Columbus, March 19.—Twenty-three Democrats voted with 64 Republicans, and by vote of 87 to 15 attached the emergency clause to the Moore oil inspection bill in the house. Minority Leader Kramer, who had served notice the Democrats would oppose this clause, as there was only "a Republican emergency," called a conference of his followers, but could not line them up.

Had the clause not been attached, the oil inspection which was stopped by the supreme court decision that the excess of fees over cost of inspection was an invalid tax, would not have been resumed for ninety days. The bill cuts the fee in half and if the short budget bill does not limit the expense allowance of State Oil Inspector Carr and his deputies, the increased force of the inspector will use up in salaries and expenses most of the fees.

The Gallagher bill to permit non-compliance with the Green anti-coal screen law in making wage contracts with miners was reported to the house without recommendation.

Important labor bills, which stuck in committee for two months, were put on the house calendar. They include the White bill for an eight-hour workday for women, from which the labor committee exempted women employed in telephone and telegraph offices; the Andrews bill, restricting to eleven continuous hours the workday of railroad employees, from which the committee exempted electric railroad employees; the Bohm bill for one day's rest in seven; the King bill, forbidding the issuance of injunctions in

strikes except to prevent irreparable injury to property; the Benedict bill, forbidding the importation of strike-breakers.

The railroads won a committee victory when the utilities committee reported the Winans bill, which the senate passed, but amended it to give the utilities commission the right to suspend a scheduled increase in rates for only thirty days, not ten months, with a possible extension for thirty more days.

No Lobby Probe.

Chairman Frank Reighard of the house finance committee, the instigator of the lobby probe which had been planned, left with the committee on a tour of inspection of state institutions, after listening intently to a comprehensive denial made to the house by Dr. Van S. Deaton of Miami of having started the report that under the guidance of a lobbyist some members of the finance committee had indulged in a night of wild dissipation in Cleveland. On going, Chairman Reighard said his present notion was to drop the matter and not offer his resolution for a probe. None of his colleagues expects him to offer it on his return or that there will be any investigation by the house.

A majority of the senate committee on temperance recommended for passage the McDermott liquor license decentralizing bill. That the measure in its present form meets with approval of few senators was admitted, and its chances of being passed with present provisions were said to be slight. Should this bill fail, it is understood Senator Moore will produce his pet measure, The McDermott plan of having county license commissioners appointed by county clerks grouped in districts is one of the chief bones of contention.

Efforts to legislate the Duchess of Manchester out of her right to act as co-executrix of the estate of Eugene Zimmerman of Cincinnati, her father, may prove a failure. The bill by Senator Pink of Cincinnati, designed to work this end, met with such serious opposition when it came up for passage that its author had it recommitted to the judiciary committee to be amended, if possible, to eliminate the most objectionable features.

Rather than see the Bragg bill defeated and no protection afforded quail, friends of the measure in the senate submitted to amendments cutting from five to two years the time during which they may not be killed. The bill as passed provides continued protection until 1917, instead of 1920, as approved by the house. The bill goes back to the house for concurrence.

The new civil service law will not be enacted until week after next. Insistence by Senator Moore, whose civil service bill was passed by the senate Wednesday, that it not be thrown aside and the Barnes civil service bill, which was on the house calendar for passage, be given preference, caused the house to reconsider the Barnes bill.

LINDSAY WANTS TO CALL GOVERNOR

Denver, March 19.—Judge Ben Lindsay of the Denver juvenile court announced that he will go before the grand jury and demand that Governor Carlson be called by that body to tell what he knows about the judge's enemies. Judge Lindsay will invite the jurors to go thoroughly into all charges which have been made against him, and to give him an opportunity to go into details in the accusations he is prepared to make against those who have been conducting the campaign against him. The judge will ask that the grand jury not permit the attacks which are being made on his court and himself to allow the jury to forget the main issue before the people now, the questions of bribery in the legislature and the Howland probe revelations, and will ask them to delve further into these.

GO TO CHURCH And You'll Win In Great Battle of Life

GO TO CHURCH that you may win in the great battle of life.

The greatest battlefield on which a man ever fought is within himself. The greatest defeats are there and the mightiest victories. Victory on the field of one's own heart means victory elsewhere. The greatest mastery is self mastery. Every true man, every true woman, recognizes this. Sin first stole our self mastery away. IT MUST BE CHARGED AND FLANKED AND GRIPPED. What the particular enemy is each individual knows, openly or secretly. What is it, O woman—back biting, gossip, mischief making, selfishness? You, O man—blasphemy, temper, appetite, passion?

HAVE YOU GONE DOWN TO DEFEAT AGAIN AND AGAIN—SEE YOUR COLORS DRAG AT THE VERY TIME YOU SHOULD HAVE BEEN MOST EASILY THE TRIUMPHANT VICTOR? THAT'S GOOD. THEN YOU KNOW THE WEAK POINT IN YOUR LINE. THAT'S WHERE THE HOTTEST CONFLICT IS TO BE FOUGHT. THERE'S THE KEY TO THE WHOLE SITUATION. YOU'LL HAVE TO MASS YOUR BATTERIES THERE. TEMPTATION TO DISHONESTY? FIGHT IT. "ARE THOSE GOODS ALL WOOL?" SAID A WOMAN TO A LITTLE SHOPKEEPER. "THEY WERE, MADAM, BEFORE THE REVIVALS AT OUR CHURCH. THEY ARE NOT NOW." UNCLEANNES, COWARDICE AND DISCOURAGEMENT ARE THE SOLDIER'S WEAKEST POINTS. FIND OUT THAT POINT AND DEFEND IT WITH ALL YOUR STRENGTH. VICTORY CONSISTS IN HOLDING ON A MOMENT LONGER.

If you want to conquer your great vice you must GO TO CHURCH. It is in church and in church alone that you will find the weapons with which to successfully wage the fight. The GO TO CHURCH movement is sweeping onward. It is irresistible. Join it now. Do not delay. GO TO CHURCH next Sunday. You will see your neighbors there. You'll be glad to see them. They'll be glad to see you.

Put on your armor.

GO TO CHURCH next Sunday.

UNCLE SAM TO AID WAR PRISONERS

Will Inspect and Report on Conditions In European Camps.

Washington, March 19. — Through the good offices of the United States an arrangement is about to be put into effect for the relief of prisoners of war held by Great Britain, Germany and Austria-Hungary.

This is the outcome of negotiations initiated by the United States. As a result of the arrangement American representatives in these three countries will inspect and report upon prisoners' camps and distribute to the prisoners supplies forwarded to them by their governments and others interested. A like arrangement is in contemplation between the Teutonic allies and France and Russia. If pending negotiations are successful a supplemental agreement will be reported whereby the United States will supervise the exchange of prisoners detained in various camps in Europe. The arrangement perfected for the relief of European prisoners of war are based on recommendations made in a report to the state department by Chandler P. Anderson, former counselor for the department, who took up the question with the foreign offices in London, Berlin and Vienna, and afterwards visited and inspected the detention camps in these three countries. Mr. Anderson says in his reports that accounts of the maltreatment of prisoners are grossly exaggerated.

RUSS HORDES RAZE CITIES

London, March 19.—Russians have again crossed the East Prussian frontier in the far northeast, near Tilsit, and also are continuing their offensive against the Austrians in Bukovina. "Hordes of the Russian forces gained a victory by invading the most northern corner of East Prussia in the direction of Memel," Berlin officially admitted. "They pillaged and burned villages and estates."

"As a retaliatory measure towns on Russian territory occupied by us will be compelled to make a payment of large sums. For every village burned down by these Russian hordes on Ger-

nan territory and for each estate destroyed three villages or estates on Russian territory occupied by us will be sacrificed to the flames. All the damage caused by fire in Memel will be answered by the destruction by fire of Russian government buildings at Suwalki and other provincial capitals in German hands."

A dispatch from Copenhagen says that statistics furnished by the president of the province of East Prussia show that 80,000 houses have been destroyed in East Prussia by Russian troops. Three hundred thousand refugees are said to be unable to return to East Prussia because they have no means of livelihood. Out of 100,000 horses only 6,000 remain.

The outer forts of Przemyśl toward which a part of the Austrian army has been struggling in an effort to bring about the relief of the besieged garrison, have at last fallen before the Russians, according to unofficial reports reaching London.

JUDGE PRONOUNCES DIVORCES INVALID

Cincinnati, March 19.—In a decision Common Pleas Court Judge Cushing held that "every divorce granted in insolvency court since Jan. 1, 1915, is void; every alimony order made there since that date is void and not enforceable."

CALAIS OBJECT OF BOMB DROPPERS

Paris, March 19.—The following official communique was issued by the government: "A Zeppelin dropped several bombs on Calais. The target of the aviators was the railway station. No material damage was done by the bombs, but seven employees were killed. In Champagne we have made appreciable gains west, north and east of Crest 196, northeast of Mesnil-Hurtus. The enemy delivered a counter attack, which was repulsed. The ground gained by us was extended into the ravine running from Crest 196 in the direction of Beausejour. In the Consenvoye wood, north of Verdun, we carried two German trenches and made many prisoners. At Hartmannsweller Kopfen we gained some ground in comparison to the ground hitherto held by us. The losses of the enemy have been very large. The German trenches are full of dead."

QUICK RELIEF FROM
CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the keynote of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

JEWELS MISSING

Hastings-on-Hudson, March 19.—News of a \$10,000 jewelry theft in the home of Hugo J. Schneider, a manufacturer of Manhattan, became public here when private detectives were brought from New York to make an investigation. The man suspected of the theft gained entrance to the Schneider home disguised as an electrical inspector. The jewelry was missed shortly after his departure. Mrs. Schneider is the daughter of H. B. Kirk, the wealthy soap manufacturer of Chicago.

THAW NOT TO GO BACK SOON

New York, March 19.—Harry Thaw's prospect of returning to Matteawan was put off almost indefinitely by a stay granted by Justice Ingraham of the appellate division. It was in the form of an order on the authorities of the state hospital for the criminal insane restraining them from taking Thaw back to that institution until five days after the appellate division has passed upon an appeal of Thaw's counsel from the opinion of

Justice Page, denying the motion that Thaw be sent back to New Hampshire. Counsel for Thaw made it clear that every expedient will be used to keep him away from Matteawan until the possibilities of getting a jury trial to decide his sanity have been exhausted.

OHIO BRIEFS

Meeting of Methodists.

Columbus, March 19.—Measured in terms of opportunity and needs, the Methodist church of Ohio is not an efficient organization. 3,500 members of that denomination were told by Harry F. Ward of Chicago in his "Survey of Actual Conditions," at the session of the Ohio convention of Methodist men at Memorial hall. Out of 1,059 pastors addressed, Mr. Ward said, 651 had replied. Many who replied in part indicated unfamiliarity with church work and the English language. John R. Mott, senior secretary of the foreign department of the Y. M. C. A., told the convention of the remarkable things the war in Europe revealed to him. A parade in which 4,000 men participated was a feature of the day.

Solon Stricken.

Columbus, March 19.—Representative W. O. Jackson of Clark county was stricken with indigestion and his condition was pronounced by physician members of the assembly as serious. Mr. Jackson has been ill for several weeks, but his condition has been considered as improved. He was taken to his home in Springfield.

Aroused by Explosions.

Cincinnati, March 19.—Seventy patrons of the Stag hotel, in night attire, hurried from their rooms when roused by two explosions, which rocked the building. Some smoke and fire in the forward part of the building on the second and third floor added to the confusion. No one was hurt and the damage was small.

Kills Man Who Proposed Suicide Pact.
Cleveland, March 19.—Lester W. Scheu, twenty-four, gave himself up to the police, saying he had killed in self-defense George D. Kent, twenty-seven who had proposed a suicide pact. They were former champions but became estranged when Scheu was married four months ago.

Crushed in Auto Crash.

Cincinnati, March 19.—Joseph Huth was probably fatally injured by an automobile here. Huth was standing on the sidewalk when two automobiles collided in front of him. One of the machines ran on to the pavement and Huth was caught between it and a stone wall.

Township Now Dry.

Napoleon, O., March 19.—Freedom township, the wettest spot in Henry county, 226 to 21, is dry for the first time known here. Its saloonkeeper quit ten days ago, but as yet no one has applied for the license. The dries attribute this to a change in sentiment.

THE BIBLE AND THE MODERN MAN

The Bible is the "best seller," the most wonderful and interesting book in all the world. It has been translated into 400 dialects and languages. It is the key to our literature, the mainspring of progress and the charter of all true reform. Never did the Bible exert such an influence as today. Thousands of scholars are studying it. Millions of men from the humble walks of life are acquainting themselves with it. For it is the text book of the Christian religion, and no wide-awake man should be ignorant of its teachings.

The Men's Bible Class Movement is one of the significant things of the times. It is spreading all over the civilized world. It is stimulating interest in the Bible among men of all shades of belief, and already it has become a great power for good.

For some weeks the Mills Gardner Memorial Bible Class of Grace M. E. church has been considering the matter of taking up, instead of the usual lessons, questions that have a special meaning for the modern man. The new program will be inaugurated next Sunday morning. The subject will be "How Our Bible Came to Us."

The following are some of the subjects to be presented—Is the Bible an Inspired Book?—Science and the Book of Genesis—The Problem of the Pentateuch—Adam and Eve—The Garden and the Fall—Stories of the Flood—The Tower of Babel—Moses and His Work, etc.

All men not attending elsewhere are most cordially invited to the class.

Y. M. C. A.'S CONDITION BETTER THAN EVER IN ITS HISTORY

IS THE ANNOUNCEMENT OF SEC-
RETARY PATTON y ALL DEBTS
ARE NOW CLEAR AND APPRE-
CIABLE INROAD IS BEING
MADE INTO MORTGAGE IN-
DEBTEDNESS — MEMBERSHIP
EFFORTS AT LAST MEETING
WITH REWARD AND OUTLOOK
IS BRIGHT.

The old theory that thirteen at a
table is bad luck was blasted Thurs-
day evening when a chicken pie sup-
per at the Y. M. C. A. partaken of
by thirteen members of the Board of
Directors and the Membership and
Physical Committees, was followed
by a series of pleasant surprises
which will bring pleasure to all sup-
porters of the institution.

The supper was a bountiful one
and the vote of thanks suggested by
Mr. Charles A. Reid to Mr. R. C. Ped-
dicord, the appointed host, received a
warm approval.

The first surprise came immedi-
ately after the supper in the form of a
report from Mr. Clarence Baer, an-
nouncing that 25 new sustaining
members had been secured in the
past week. At the supper a week ago
Mr. Baer suggested, and undertook
to father, a subscription petition for
the number secured, and the surprise
at its early success, was genuine. Mr.
Baer was assisted by Horace Ireland.
The stimulus of the announcement
resulted in an unanimous voice for
repetition of the attempt, and Mr.
R. C. Peddicord, chairman of the
membership committee, volunteered
to foster the endeavor. The secur-
ing of the 25 new subscriptions
covers the deficit of last month's fi-
nancial report, thereby fulfilling its
object.

The next surprise was from Mr.
William Worthington, chairman of
the special financial committee in
charge of building finances, who an-
nounced that during the past week
he was able to apply another thou-
sand dollars to the mortgage on the
building. Mr. Worthington's an-
nouncement was heartily applauded.
Since he has been in charge of this
phase of the institution's main-
tenance—a period of seven months—
the Association has cleared up all
outstanding debts and cut into the
mortgage something over \$2,000.
This leaves the mortgage indebted-
ness \$13,000. In making his report
Mr. Worthington stated that "If the
Y. M. C. A. received all its pledges
from both campaigns, we would have
money to burn."

The third and most gratifying
surprise comes in an announcement
made Friday morning by Secretary
Patton.

"The Y. M. C. A. has never been
in better financial condition than it
is now," said Mr. Patton, "and it is
in far better condition, proportion-
ately, than the majority of Associa-
tions over the state at the present
time, because of its not being affect-
ed greatly by depression of manufac-
turing markets."

Mr. Patton said that the mem-
bership now stood at 315. He said, also,
that he had been well pleased with
the institution's various activities
which, while not numerous, had been
highly successful, and pointed, as an
example, to the series of religious
lectures being given by Profes-
sor Geoffrey Morgan, weekly, at which
from 35 to 50 boys are always in at-
tendance.

Another supper will be given next
week, the host of which will probab-
ly be announced at that time.

October. However, the members will
meet during the summer, at a camp
12 miles east of Chillicothe, where
fishing in the Scioto river is excel-
lent. A big fish fry is planned for
early summer.

CALL FOR BIDS ON WASHINGTON AVE.

Bids for the paving of Washington
avenue from Court street to Ely
street, will be received until 12:00
o'clock noon, April 17th, and it is
expected that the contract will be
let within a short time thereafter.
The bids will be received by Ray
Maddox, clerk of the Service Board.
The Washington avenue improvement
is one of the most important im-
provements that will be made in the
city the coming summer.
